

Anthropomorphism

Anthropomorphism means giving animals human characteristics.

We do it all of the time, in cartoons, for instance.

Some of the greatest stories, such as 'Wind in the Willows' used anthropomorphic animals as characters.

Have a look at the characters below. Could you guess at a personality just from the picture? You might like to do a character description for each one.

Try to draw some of your own anthropomorphic animals.

Why not make up some stories about your anthropomorphic animals?
