

How do we look after animals?

What animals make the best pets?

Draw and write.
Draw a pet in the middle box. In the small boxes, write and draw what the animal needs.

The worksheet consists of a central instruction box with a black border. Surrounding this box are five empty boxes with green borders, connected by blue lines. Two boxes are positioned above the central box, one to the left and one to the right. Two boxes are positioned below the central box, one to the left and one to the right. The top-left and top-right boxes are smaller than the central box, while the bottom-left and bottom-right boxes are the same size as the central box.

What pets do you own?

Who looks after them?

What do they need?

.....

.....

Talk about what these pets need to keep them happy.
