

Halving

You've doubled numbers to get twice as much as you started with. What about halving numbers?

1. You began with 2 badgers
What would half of 2 be?

2. What about 4 herons? How many would you have if you halved 4?

3. Half of 6 weasels would be

4. Half of 8 wasps would be

5. Half of 10 owls would be

6. Half of 12 rabbits would be

7. Half of 14 swans would be

8. Half of 16 grebes would be

9. Half of 18 kingfishers would be

10. Half of 20 ladybirds would be
