

## Tally and Tot-up 3

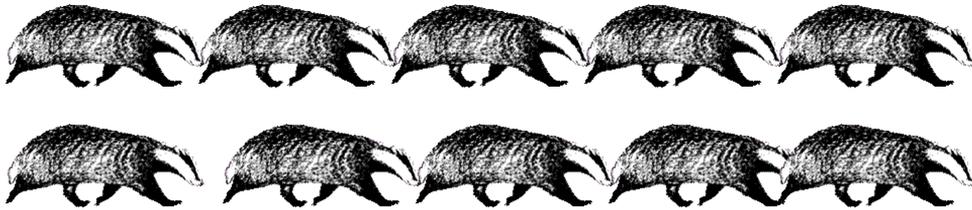

Go on, have a go at these puzzles.

There are 10 badgers living in a sett.

How many sets of 5 would that be? .....

How many sets of 2 would that be? .....

How many badgers would there be in:

2 setts .....

8 setts .....

4 setts .....

7 setts .....

5 setts .....

3 setts .....

9 setts .....

6 setts .....

How many setts would I need, to see:

20 badgers .....

30 badgers .....

70 badgers .....

40 badgers .....

80 badgers .....

60 badgers .....

50 badgers .....

90 badgers .....

Did you get them right?  
Well done!
