

Rap up the Planet

Thick carpets and curtains, loft insulation

No more standby on your television

Switch it off, turn it down

If there's no one in, don't be a clown!

We don't want waste, we want you to save

Be more careful in the way you behave!

This is our message, hear our song

If you try to save energy, you can't go wrong

So what about tonight, when you leave this school?

What if the weather's starting to turn cool?

Hurrying home, it's dark outside

Shut doors and curtains, keep the heat inside

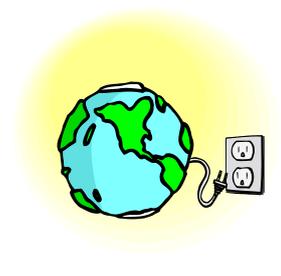

We hope we will give you a taste

Of the things you can do to stop the waste

If you join with us, for what it's worth

You too can all help to save planet Earth.

Grateful thanks to: Northern Electric and Gas
