

Bits of a badger!

Can you write in the parts of a badger? Look at the words in the box.

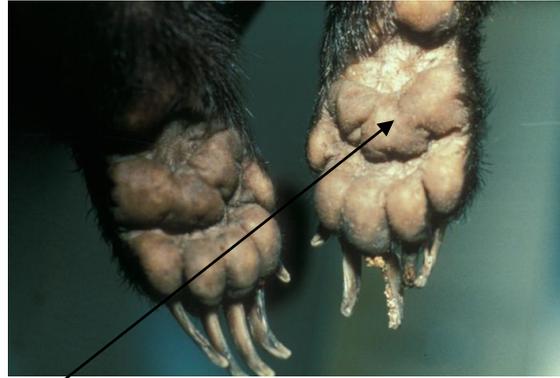

ear, eye, nose, foot, claw, tail, coat

This is badger hair on barbed wire. Can you see the bands of black, white and brown?

What colours are a badger's face?

Badgers have big claws.
What do you think they
use them for?

Look for badger
footprints in the
mud.
Look for the big
back pad.
How many claw
marks can you
see? _____

(They really have 5 toes and claws, but you can't
always see them in the mud.)

Badgers love to
clean their claws
on trees. Look
for their claw
marks on *elder*
trees. (They like
those best!)

Look for badger *trails* in the
woods and fields. (They usually
wall along the same trails every
day. © Durham County Badger Group 2010)
