

Badgery Science Fun 19

Some things that we find on this planet are living things. Some are not. Some were once alive, but are not alive now.

Put an A in the box of anything that is alive, an O in the box of something that was once alive, and an N in the box of anything that has never been alive.

Badger

Stone building

Bird

Wooden stool

Aluminium Can

Tree

Cotton shirt

Shark

Glass

Dinosaur skeleton

Can you think what they all do?

all living things have in common? What do

1. Things don't get around alone!

2. Aren't babies cute?

3. We all need oxygen to

4 This badger has heard a noise.

5. Badgers love to eat worms.

6. From a baby to a girl.

7. This is a badger's dung pit!

Think about it. We do all of these things. So does anything that's alive.
